

Founded in 1963, **Hong Kong Standards and Testing Centre (STC)** is the first independent, not-for-profit, testing, inspection and certification organization in Hong Kong, striving to achieve our goal of serving the public by supporting the industrial and commercial sectors with a spectrum of internationally recognized and accredited testing services followed by impartial and timely test reports. In addition to our reliable one-stop testing, inspection and certification service, we take a collaborative approach in helping our customers to understand and meet the safety requirements in all continents. Recognized by many national and international organizations and accreditation bodies, we aim to keep abreast of the latest technologies and standards to support our clients' product development.

Our Electrical Products Division has been granted accreditations by CNAS of China, DAkkS of Germany and HOKLAS of Hong Kong for RF, EMC and Electrical Safety tests. We are a CB laboratory under the worldwide accepted IECEE CB Scheme and are able to issue internationally recognized CB reports. STC is also an approved laboratory for ASTA, CCC, EPSR, HKSM, PKM, RCM, PSE, KC, TUV, UL, VDE, FCC, IC, OFCA, VCCI and USB-IF; and hence we are capable of providing extensive electrical product testing services in different aspects.
